This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FREQUENTLY ASKED QUESTIONS

What can I charge with Sherpa 15?

Sherpa 15 is designed to give one full recharge on most phones and includes certified cables for most devices. You can even recharge two devices at once, utilizing both built-in cables at the same time.

How do I charge my gear?

Plug in and turn it on. Simply select the cable that works with your device, plug in, and push the Battery Indicator to power up. Sherpa 15 senses when the device is full and will automatically shut off.

How long will Sherpa 15 take to charge a phone?

It really depends on your device. On average you're looking at 2 hours or so for a full recharge on a phone. The beauty of Sherpa 15 is it's so lightweight and thin it can go anywhere while recharging on the go.

Can I charge Sherpa 15 and a phone at the same time?

No. Due to certifications required to make Sherpa 15 approved for recharging certain devices, it does not allow for pass-through power.

How long will a charged Sherpa 15 last?

At least 3 months just sitting around. That being said, the best thing to do to keep any battery healthy is to use it. Sherpa 15 is meant to go with you everywhere, be that friend you can always count on to help you out of a situation. If you plan on storing Sherpa 15 for long periods of time, we recommend charging it every 3-6 months.
